Giving Tree

Make your toy drive or gift card drive more personalize by using a Giving Tree!

We can help you create a Giving Tree for your office or community group. Each paper ornament will feature a specific gift request from an individual, allowing participants to choose a personalized gift to donate. Whether it's a toy for a child or a household item for a parent, every contribution makes a direct impact. We provide the gift requests and the printable ornaments so your group can experience the joy of making the holidays brighter for others.
